

LAKE

 Michigan
FARMS

My sole mission with Lake Michigan Farms is to grow organic fruits, vegetables, herbs and flowers year-round for our local community. To make this happen, I'm in the process of creating an indoor farm greenhouse using only salvaged and recycled materials. In true Beaver Island fashion, the exterior shell is a semi-truck! If you have any of these items listed below or know someone that might, I'm even willing to dig through mountains of junk to find what I need and it would really help me keep going this Winter to grow more fresh food for us.

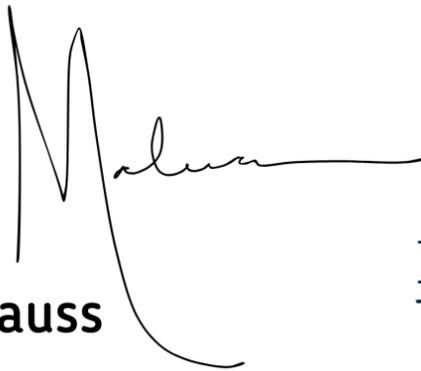

Thanks so much!

Malena A. Gauss
